If all is well with women it will be well with the society and ultimately the nation.

Swami Vivekananda valued the role of women, he said their role is complementary, neither male nor female is superior. Swami Vivekananda wrote: “It is very difficult to understand why in this country so much difference is made between men and women, whereas the Vedanta declares that one and the same Conscious Self is present in all beings.”

Women assume vital part in framing, molding and providing guidance to Indian Culture. In India, women give almost 50% of the aggregate populace. The commitment of women towards family and towards society, Country building is of incredible significance, out of sight of quickly changing in Indian Culture that is in the challenge of Advancement, Privatization and Globalization.

In India and on the planet, women assume basically pivotal part in building family and in building an economy. Instructed mother makes an informed world. Women remain for teach, peace and agreement. Taught mother can teach their qualities and good among their children in a compelling way.

Provincial women may not be so instructed, they can be ignorant. Be that as it may, even they are creating otherworldly, logical and administration aptitudes by doing yoga, activities and social work in particular regions.

As a mother, women need anchored condition for their children and better future. She needs to see them thrive and make their expectations a reality. She transmits the Ethical qualities to their kids, decrease the worry by spurring/teaching their children and outfitting them with the characteristics of Qualities to confront the difficulties in the life. She is a mainstay of home. Women’ part in the family is to a great degree huge part which cannot be described in words.

Subsequent to playing out her obligations towards family and local employments, she needs positive feeling, a feeling of nobility and feeling of flexibility by including herself in social exercises, work in particular zone, welfare of the general public and helps the destitute individuals.

To judge the women’ possibilities, must be seen her capacities concerning care their kid, guardians, family and her friendliness and helpfulness and reliability, how she adapt to the circumstance at each progression for good local condition.

Women status can be evaluated by the regard and position of women in the public arena. No nation can be produced and accomplish destinations without exploiting women’ possibilities and levelheaded choice. Any business/Industry Endeavor is a key to financial advancement of a nation, which can’t be conceivable without having levelheaded choice of women business visionaries, as I feel. Women assume an indispensable part in the social, financial and political improvement of the general public gave they are aware of their rights and duties.

Women part is differed every once in a while beginning from antiquated to present day times

As indicated by worldwide Survey Thomson Reuters, India is the "Fourth most risky nation" on the planet for women and most noticeably bad nation for women among the G20 nations. In the course of recent decades, the status of women in India has seen numerous awesome changes. In present day India, women have held high office in India including that of the President, Executive, Speaker of the Lok Sabha and Pioneer of the restriction, Chief of all around presumed association, head of different National and Global banks et cetera. It has been altogether watched that in the medieval period. With the advancement of equivalent rights by numerous reformers, the historical backdrop of women in India has been momentous. Nonetheless, women in India keep on
facing outrages, for example, assault, corrosive tossing, endowment killings, constrained prostitution of young women.

As per ponders/researchers, women in Antiquated India delighted in parallel status with men in all parts of life. Works by antiquated Indian grammarians, for example, Patanjali and Katyayana recommend that women were taught in the early Vedic period. Rigvedic stanzas propose that women wedded at a develop age and were most likely allowed to choose their own particular spouses. Sacred writings, for example, the Rieg Veda nd Upanishad specify a few women sages and diviners, strikingly gargi and Matreyi.

There are not very many messages particularly managing part of women an essential exemption is the Stri Dharma Paddhati of Tryambakayajvan, an authority at Thanjavur c.1730. The content accumulates structures on women' conduct going back to the Apastaqmba Sutra (c.4th century BCE). The opening stanza goes:

*Mukhyo dharmah smartishu vihito bhartr shushrushanam hi* there women are urged to be administration to their spouses.

A few kingdoms in antiquated India had customs, for example, nagarvadhu(Bride of the city). Women contended to win the desired title of nagarvadhu. Amrapali is the most acclaimed case of a nagarvadhu.

As per thinks about, women appreciated equivalent status and rights amid the early vedic period. In any case, in roughly 500 B.C., the status of women started to decay, and with the Islamic attack of Babar and the Mughal Domain, women’ opportunity and right steadily exacerbated.

**Medieval Period**

Indian women’ situation in the public eye additionally weakened amid the medieval period, when kid relational unions and a prohibition on remarriage by windows turn out to be a piece of social life in a few networks in India. The Muslim success in the Indian subcontinent conveyed purdah to Indian culture. Among the Rajputs of Rajasthan, the Jauhar was drilled. In a few sections of India, some of Devadasis were sexually abused. Polygamy was polished among Hindu Kshtriya rulers for some political reasons. In numerous Muslim families women were confined to Zenana zones of the house.

Notwithstanding these conditions, women frequently ended up conspicuous in the fields of legislative issues, writing, training and religion. Razia Sultana turn into the main women ruler to have ruled Delhi. The Gond ruler Durgavati ruled for fifteen years before losing her life in a fight with Mughal Head Akbar’s general Asaf Khan in 1564. Chand Bibi protected Ahmed nagar against the ground-breaking Mughal powers of Akbar in the 1590s. Jehangir’s significant other NurJehan successfully used magnificent power, and was zebunnissa were notable artists, and furthermore impacted the decision powers. Shivaji’s mom, Jijabai was ruler official in view of her capacity as a warrior and a chairman. In South India, numerous women controlled towns, towns, and divisions, and introduced new social and religious establishments.

**Historical Practices**

Customs, for example, Sati, Jauhar, and Devadasi among a few networks have been restricted and are to a great extent dead in present day India. In any case, a few cases of these practices are as yet found in remote parts of India. The purdah is as yet polished by Indian women in a few networks. Kid marriage stays normal in country territories, in spite of the fact that it is illicit under current Indian law. The part of conventional women was very unique. Prior, because of social conditions they were kept to be simply housewives; they needed to take care of her family. With change socio-political situation their condition has likewise changed.

After freedom women in India have progressed in numerous fields. In a few fields her advance is arrive check, especially in the field o Training, Administration, Medicinal services and office organization. Women presently dwarf men – in urban territories. Nobody could envision that such colossal accomplishments, she picked up in a couple of decades. Women have turned out to be successful in every last circle of life.

I might want to opine that Training is extremely powerful device for settling the issues among every single individual. Instruction makes administration quality particularly in women and young women that is the reason current women are slanted towards the social exercises and enhancing their economic wellbeing. They go to social capacities and esteem her significance in social life. Women are taking an interest in Financial and political exercises as well. Today's Indian women are exceeding expectations in every one of the fields, for example, medication, building, Cultivation Horticulture, music, composing.

Top to bottom investigation of history would uncover that ideal advance of a country depends principally on how the women are dealt with by the general public. In the event that everything is great with women it will well with the entire country.

Obstructions in women' advances grow from numerous sources: religion, traditions, conventions and all other which can be dodged for the improvement of women.
Here is the name of some persuasive women who were the main Indian women to leave a mark on the world in their picked field of work and wound up motivational power for women network:

Pratibha Devisingh Patil, conceived 19 December 1934, is an Indian politician who filled in as the twelfth president of India from 2007 to 2012; She was the primary lady to hold the workplace.
